

A-TEC MARKSMAN: SILENCER DESIGNED FOR SNIPER RIFLES

The A-TEC Marksman offers an excellent and efficient muzzle brake and a suppressor to fit it. With the suppressor attached, you secure accuracy, hide the muzzle flash, and reduce the sound pressure significantly.

Marksman is made for professional users and tough usage. The silencer is surface-treated with Cerakote, and the muzzle brake is black nitrate treated, making the surface 'diamond-hard' and extremely robust.

Marksman PRS is equipped with a muzzle brake on the front and is suppressing muzzle rise even more.
