

**A-TEC OPTIMA 45: HYBRID DESIGN – BEST OF BOTH WORLDS**

REMOVABLE END CAP TO ADD:  
EXTRA MODULES,  
MODULE BRAKE,  
A-TEC A-RING

REMOVEABLE/  
INTERCHANGABLE  
MODULES TO CALIBRES  
.224-.375

REAR SECTION  
UNIVERSAL UP TO  
CALIBRE .375.

**OPTIMA 45**  
Technology by A-TEC

# One silencer for all your rifles

The Optima family consists of six different premium products which are all in a modular design making it possible to change the two front modules to suit another calibre within the .224 - .375 range. Extremely durable due to the hybrid design: A hardened aluminium alloy designed to handle high temperatures, and a stainless steel core all the way that will secure the silencer's lifespan to meet the shooters' needs.

**What characterize the Optima45?**

- Premium product
- Low silhouette (45 mm dia)
- Low weight
- High effect

**Extremely durable due to hybrid design:**

- Aluminium alloy frame
- Heat treated stainless steel core

**Modular design:**

- Possible to change the two front modules to fit another caliber
- Possible to remove one module to make it shorter
- Possible to add end cap brake (ECB) for significant reduced recoil

*The Optima series is intended for the quality conscious hunter/shooter with eyes for details, and for the hunter/shooter who want the best possible silencer on the rifle!*
